**Associated Builders and Contractors of Michigan
Self-Insured Workers' Compensation Fund
2022 RENEWAL ANNOUNCEMENT**

FOCUSING ON SAFETY HAS ITS REWARDS
Celebrating Over \$100 Million Back to Members

East Lansing, Michigan.

The Associated Builders and Contractors of Michigan Self- Insured Workers' Compensation Fund (ABC Fund) again rewards its members for outstanding performance and gives back its highest profit return yet! As a member owned self-insured workers' compensation program, the ABC Fund has become the largest workers' compensation provider for Michigan's construction industry. From substantial profit returns to aggressive claims handling, the Fund is the most cost-effective workers' compensation option for its members year after year. This year, ABC Fund members will receive \$14,722,578 credit for good performance on their 2022 renewal. This brings the total returned back since inception to **\$104,080,799** and represents an average of 45% premium return.

As always, Fund members receive stable yet competitive upfront pricing. The ABC Fund's excellent track record has insulated its members from the turbulence of the traditional insurance marketplace to keep its members' cost low and predictable. This competitive pricing, along with the Fund's selective approach to underwriting new members, is designed to save members money on the total cost of workers' compensation over the long term. This results in lower net premium costs based on the excellent performance of the group.

Additionally, the ABC Fund takes the responsibility for the costs associated with claims and workplace safety very seriously. Reducing the costs associated with workers' compensation claims means more profit to go back to members. The Fund's Board of Trustees, elected by the members, governs the operation of the Fund

and provides authorization on claims settlements. Also, aggressive claims management and lower caseloads per adjuster allows for more time to proactively handle claims and reduces overall claims costs.

The Fund offers its members numerous safety resources and loss control programs that are specific to the construction industry. Some of the educational training focuses on creating a safety culture in the workplace, by working with owners/supervisors on proper claims handling, accident investigation, return-to-work programs and making every employee accountable for safety on the job. The Fund works with loss control specialists who provide sound guidance and cost-saving solutions on safety and loss prevention for its members. The online safety center includes a comprehensive human resource library at no cost to members. It provides in depth information on the most current federal and state employment laws, as well as a complete range of downloadable forms, posters, and literally hundreds of topics.

For most members, the cost savings is the primary reason they insure with the ABC Fund. It has proven to dramatically reduce the overall costs of their workers' compensation insurance year after year. Each member can further reduce their costs with the help of the Fund's loss control resources available by preventing claims and reducing the frequency and severity should claims occur.

The ABC Fund is endorsed by ABC of Michigan and the three ABC chapters. The member-owned program is exclusively represented by a statewide network of appointed independent insurance professionals that focus on the construction industries.

Congratulations to Fund members for an excellent job on keeping their premium costs low and employees safe! As a member-owned program, we ask that you please spread the word to other quality contractors you know about all of the great benefits the Fund provides.
